HOW TO USE / ADVICE

Carefully break the vial with the appropriate breaker, mount the dispenser and apply the contents on the areas to be treated and massage until completely absorbed.

For better penetration of the concentrate it is recommended to apply a compress with a mud or a bandage afterwards. Alternatively you can use the product with equipment for electroporation and oxygen therapy.

ACTIVE INGREDIENTS / EFFECTS

Caffeine: promotes lymphatic drainage and stimulates lipic metabolism.

African kigekia extract: rich in saponins, flavonoids and phytosterols that give it anti-radical, moisturizing, firming and stimulating properties of the microcirculation. Moreover, thanks to its particular peptide composition, it is able to compact the dermis, forming a real invisible tensor lattice.

Peppermint essential oil: rich in menthol gives an immediate feeling of freshness and relief, promotes microcirculation and the correct venous return.

Thermal salts: improve cellular homeostasis and promote the drainage of excess fluid.
