HOW TO USE / ADVICE

Use perfectly in the evening on cleansed skin. Apply a small amount of product on the face, before the cream.

ACTIVE INGREDIENTS / EFFECTS

Marine collagen 10%: it is a fibrous protein, which is then extracted from the skin and scales of sea fish, including salmon and cod, with the aim of creating products for human use useful to combat cellular aging. Collagen in fact helps to maintain the firmness, firmness and firmness of the skin, minimizing the presence of wrinkles. It, in fact, is present in the dermis where - together with elastic fibers and glycosaminoglycans - it gives rise to that three-dimensional structure that supports and supports the skin, giving it strength and elasticity.

Unfortunately, the synthesis of collagen decreases with aging, while increasing its degradation and with it the roughness of the skin, which becomes less compact and thinner.

Thermal salts: soothing and antioxidant properties.
