

PRODUCT NAME

FILLER AMPOULAS HYALURONIC ACID

CATEGORY

SKIN CARE

SIZE

6 x 5 ml

ITEM CODE

IT0477

EAN

80527475447760

INDICATION

PRODUCT DESCRIPTION

Professional facial treatment specific concentrate to fill, smooth and firm the skin of the face based on hyaluronic acid at different molecular weights and thermal salts.

FEATURES

Non-greasy
Leaves no residue
Paraffinum free
Paraben free
Nickel tested

HOW TO USE / ADVICE

Carefully break the vial with the appropriate breaker, mount the dispenser and apply the contents on the areas to be treated and massage until completely absorbed. For a better penetration of the concentrate is recommended to apply subsequently the mask salts of ischia hyaluronic acid. Alternatively you can use the product with equipment for electroporation and oxygen therapy.

ACTIVE INGREDIENTS / EFFECTS

Hyaluronic acid: is a linear polysaccharide naturally present in the human body. is one of the main components of the connective tissues of man and is particularly concentrated in the skin. The main feature of hyaluronic acid is its ability to bind to water molecules, storing them in the skin tissue. This property helps to maintain an optimal level of hydration, significantly promoting the elasticity and tone of the skin. Another important function of this polysaccharide concerns its ability to promote the regeneration of damaged tissues, stimulating cell proliferation and differentiation. The natural concentration of hyaluronic acid tends progressively to decrease following the physiological aging and the action of free radicals. This results in a reduction in the level of hydration of the tissues, accompanied by a loss of elasticity, tone and firmness of the skin. Thanks to the wide variety of molecular weights, hyaluronic acid is able to act at different skin levels.

Hyaluronic acid with very high and high molecular weight: they form a protective film on the surface of the skin, defending it from aggressive external agents (such as pollution).

Medium molecular weight hyaluronic acid: adheres to the skin surface, moisturizing and softening the stratum corneum.

Low molecular weight hyaluronic acid: penetrates deeply, improving and prolonging hydration.

Thermal salts: soothing and antioxidant properties.

Alfahydroxyacids: stimulate the production of collagen and elastin and give firmness and elasticity.

Thermal salts: soothing and antioxidant properties.

INGREDIENTS

AQUA, GLYCERIN, ALCOHOL DENAT., PROPYLENE GLYCOL, HYDROLYZED HYALURONIC ACID, TRIDECETH-9, PEG-40 HYDROGENATED CASTOR OIL, PHENOXYETHANOL, TETRASODIUM EDTA, ETHYLHEXYLGLYCERIN, PARFUM, LACTIC ACID, GLYCOLIC ACID, POLYSORBATE 20, CITRIC ACID, POTASSIUM BROMIDE, POTASSIUM IODIDE, SODIUM CHLORIDE, MAGNESIUM SULFATE. PAQ(12M)

WARNINGS & CONTRAINDICATIONS

Store in a cool, dry place away from sunlight.

Do not use more than 12 months after opening.
Keep away from children.
